For medical laboratories, diagnostic centres and blood banks

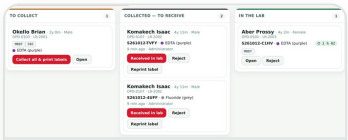

LAB SOFT-TECH

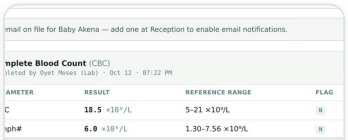

Every sample traced, every result checked, every test billed.

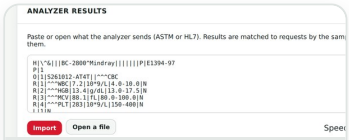

Built from the laboratory of Hope Children and Adolescents Hospital, Gulu, where it runs every day.

Without Soft-Tech		With Soft-Tech
Tubes mislabelled, lost or left waiting	→	A barcode label on every tube, tracked from collection to result
Results copied by hand from the analyzer	→	Analyzer results imported and matched by barcode, no retyping
Reports missing parameters or using adult ranges for children	→	Every parameter with age-specific reference ranges and flags
No quality control records; unpaid tests	→	Daily QC with Westgard rules; every test reaches the bill

Sample reception

Results and ranges

Quality control

Analyzer import

Everything in one system

- Requests and barcode labels
- Analyzer connection (ASTM, HL7)
- Blood bank
- Sample reception and tracking
- Quality control (Westgard)
- Billing, clients and mobile money
- Results with age-specific ranges
- Worklists and reagents
- Statistics and DHIS2 reports

Works without internet · Mobile money built in · Your logo on every page · Secure, backed up daily · Nothing to install · Support in Gulu

Yearly subscription

Affordable prices

Users for each bench, more on request
